## **Notice of Clarification - Pool Survey**

*To All Homeowners,*

*For the word “re-purpose” used in the survey*

*Dear Homeowners.*

As we continue to receive completed pool surveys that were hand-delivered/mailed out to you on January 5<sup>th</sup>, we have come to realize that the word “re-purpose” we used on the survey is not clear to all. Our sincere apologies.

Kindly note that it is simply landscaping which involves 2-stages as follows:

- ❖ 1<sup>st</sup> -waterproofing of the pool so that water does not go down to the garage and then fill it up with gravel and,
- ❖ 2<sup>nd</sup>-landscaping with some flowerbeds, nice stone benches and tables, water fountain and/or waterfalls. You are invited to add your suggestion in this category.

The estimate will not exceed \$100,000.00 and the landscaping will increase the value of our property.
